

arena

arena

The ARENA electronic soccer table designed by SAM is built in a one-piece synthetic cabinet with four levelers for a perfect positioning.

The cabinet can have interior lighting with intelligent RGB LEDs, controlled by an electronic board, as well as scoreboards on both sides of the playing field.

The SAM9 electronic board allows to discriminate 7 different events (coin insertion, home goal, away goal, etc.) that produce light and sound effects. These events can be controlled at will. In addition, the ATTRACT MODE EVENT will attract the public's attention, significantly increasing revenue.

Its LEADER PLAYER designed by SAM in aluminum with two separate legs provides a precise, fast and fun game.

ALWAYS USE ORIGINAL SAM SPARE PARTS.

100% FABRICADO EN EUROPA  100% MANUFACTURED IN EUROPE
